COLLAPSING RUBBLE   HAZARD 9

MECHANICAL

Complexity Simple

Stealth DC 28 (expert)

Description A number of jagged metal fragments balanced on the sloping mound of rubble above comes crashing down.

Disable (expert) Thievery DC 28 to remove the fragments and disconnect the hidden cords that would have wrenched the cap on the tube loose.

Deadfall ↷ **Trigger** A creature attempts to pass through the area without disabling the trap first; **Effect** Jagged metal fragments crash down upon the creature, dealing 4d10+18 slashing damage to all creatures within 10 feet (DC 29 basic Reflex save). A series of hidden cords also loosens the cap on the tube, setting the tallow ooze free.
